

I would like to request that the FCC reject NAB's petition 04-160. I have been a satellite radio subscriber for 3 years now and enjoy having the option of PAYING extra for uncensored radio. If you change the content of what satellite radio listeners pay for, than you have effectively altered what over 1.5 million people have invested their money in. Cable tv can 'air' anything they want because it is not broadcast and is a 'paid service'. Why does satellite radio not get the same considerations?

I once again urge you to please reject NAB's petition 04-160.

Respectfully,  
Jeff Howard
